

## ***CERTIFICATE OF COMPLETION*** **PARAMEDICS**

This certificate program prepares the EMT Basic for the highest level of emergency medicine. The student will learn advanced techniques of administering care in life-threatening conditions and to reduce disability. It will also teach the students to recognize signs and symptoms of most life threatening illnesses and injuries, and to effectively manage them. EMT paramedics are employed by advance life support ambulances, emergency departments, critical care units of hospitals, tactical teams, industrial medicine, and sports medicine groups. State licenses are required. The student is required to perform 550 hours of clinical hours in emergency departments and ambulance services. .
