HYBRID COURSES

Hybrid courses are courses that combine approximately 50% "face-to-face" instruction with 50% online computer based learning. A significant part of the course learning is online and the amount of classroom seat-time is reduced. Course content and course work does not change with hybrid status, it remains the same. Some computer and technical skills are necessary in order to succeed in hybrid courses. Before taking a hybrid course it is recommended that students are competent at the CS121 Principles of Microsoft Office level.
